Martin – Sorry if I have not responded on VB/I-70 with regard to PRP-lead. At the moment, the PRP (City of Denver) is not performing any work that requires EPA oversight @ OU-2 so there is nothing to worry about. The other 2 OUs are fund-lead.

OU-1: Residential cleanup with USACE so they are overseeing the contractor and its work. It still requires my coordination with USACE on numerous issues that arise with property owners.

OU-3: EPA contractor is performing RI field activities – mostly GW sampling that does not require my continual oversight.

Let me know if you need more info.

**Subject:** FW: excepted exempted and SF sites

So I guess I need to communicate where we have EPA staff overseeing PRP work, where we have contractors overseeing PRP work, where we have the Corps or BOR overseeing PRP work and where we have no one overseeing PRP work for the list of PRP sites I just sent you on those 4 tabs. I will have to try to report out for the 9 am call tomorrow.
